Walnut Rootstocks

**RX 1** - (USPP #20,649)
An advanced selection of paradox hybrid (Juglans microcarpa x Juglans regia). Selected for its resistance to Phytophthora and good survivability. Most adaptable rootstock, largest tree and highest yield in replicated trials. Shows some evidence of resistance to crown gall.

**VX 211** - (USPP #21,179)
An advanced selection of paradox hybrid (Juglans hindsii x Juglans regia). Selected for its root lesion nematode tolerance and vigor. This selection also has moderate resistance to Phytophthora and survives well in field tests.

**VLACH**
A commercial standard Paradox rootstock, (J.hindsii x J.regia) grown by micro-propagation, which originated from a vigorous Paradox tree in Stanislaus County.

**GRIZZLY** - (USPP #16/350,240)
A new, interesting clonal walnut rootstock selected from a superior performing tree in a replant walnut orchard. The tree has been observed with a variety on it for over 20 years. Excellent size and vigor in a challenged planting site. Limited nursery production at this time.

**PRODUCT FORMATS FOR WALNUT TREES:**

**OPTION 1**
- Ellepot® container
- Paradox Roostock: RX1, VX211, Vlach
- Great Defense Against Crown Gall
- Readily Available, Cost Effective

**OPTION 2**
- Straight Bareroot
- Paradox Roostock: RX1, VX211, Vlach
- One Season Growth
- Ready to Graft in Your Orchard

**OPTION 3**
- Finished Trees
- Budded or grafted
- Bareroot Trees on Clonal Paradox Rootstock
- No Field Budding or Grafting Logistics
